

ARE YOU LOOKING FOR WAYS TO HELP?

During this unprecedented period of time as many of the seasoned members of our parish are hunkering down to keep the curve flattened from outbreaks of the coronavirus and at the same time are protecting themselves from contagion, you may be asking how can I help?

Here are a few areas where we may need some help:

- We may get appeals for help in having groceries picked up.
- There may be a need for a prescription to be picked up.
- Folks will begin to feel isolated and will need a call.

If these are any areas you feel you can help, please email Pastoral Care Coordinator Lynn Wiss at lynn.wiss@cgs-raleigh.org or call 919-831-2005 and leave a message. (Messages are listened to daily.)

We have suspended home visits during this period to keep our parishioners and ourselves from being at risk. Please keep in touch by phone with those you know may be alone. Emails are great, but there is nothing like the human voice to let folks know they are important and loved.

And if you cannot help in the areas aforementioned, the greatest and most loving thing to do is to keep our fellow parishioners, our healthcare workers, our country, and the world in your daily prayer offerings. Thank you for all you do, and may you and your family be safe and healthy!
